

ISEC 2021

The 15th International Security Conference

21(Thu) ~ 22(Fri) October, 2021 COEX, Seoul Korea

DIGITAL SECURITY

Recently, digital transformation is rapidly progressing in all industries.
In digital transformation, 'security' is the infrastructure that must precede.

Digital : Security

ISEC 2021, Asia's largest international security conference
along with the message "digital is security", it means "security in the digital age."
Under the theme of "Digital: Security," practical discussions and active information exchanges take place.

Objectives

Discuss various digital security issues and share information, including cyber security, physical security and convergence security

Support the training of chief information security officers and security managers across all sectors in order to help their capacity building

Provide a venue of communication and information exchange between major security solution providers and consumers

Features

The largest security conference in Asia, marking the 15th event, since the first conference in 2007

Amid the accelerating transition to digital across all sectors of society, Emphasize the importance and need for security, introduce security trends and issues, and present practical countermeasures

Reflect the trend of globalization, convergence of security, and smart security, and discuss various security issues from cyber security to physical security, including video security and access control, and to convergence security

Expanding basis for security industry by hosting joint conferences by sector and industry, including municipalities/national defence/medical/health/cloud/cloud/video security and AI control

Expand the base of the security sector and enhance awareness with the sponsorship of over 50 related organizations and associations, including the representative international information security experts council, (ISC)², and the participation of members (companies)

Introduce a “participants’ real name verification system,” whereby participants are verified by their real names through mobile phone authentication, and approves pre-registration only for relevant personnel in charge of security

Hold the ‘ISEC 2021 Best Speaker Award’ based on on-site voting, surveys, on-site monitoring evaluation, etc., thus improve the quality of presentation contents and lectures
